What's Your Bedroom Vibe?

Answer these 5 questions to discover your bedroom style. Tick the option that resonates most with you.

1. When you walk into your ideal bedroom, you feel...

- A) Calm and clear - minimal items, maximum peace
- B) Wrapped up and warm - layers, textures, soft everything
- C) Polished and pampered - crisp lines, luxury touches

2. Your ideal colour palette is...

- A) White, grey, and one accent colour
- B) Warm neutrals, earthy tones, deep greens
- C) Crisp whites, navy, and metallics

3. On the bed, you want...

- A) Two pillows, one throw, nothing more
- B) All the pillows, all the blankets, maximum cosiness
- C) Hotel-style tucked sheets with decorative cushions

4. The lighting you prefer is...

- A) One clean lamp, maybe a candle
- B) Fairy lights, multiple candles, warm glow everywhere
- C) Matching bedside lamps, a dimmer switch

5. Your approach to bedroom accessories is...

- A) Less is more - every item earns its place
- B) More is more - books, plants, photos, memories
- C) Curated and coordinated - everything matches

Mostly A's: The Minimalist Sanctuary

You crave calm and order. Focus on decluttering, clean lines, and quality over quantity. Chapters 4, 7, and 8 are your priorities.

Mostly B's: The Cosy Cocoon

You want warmth and texture in every layer. Focus on bedding, lighting, and soft furnishings. Chapters 1, 2, and 6 are your starting points.

Mostly C's: The Hotel Luxe

You love that boutique hotel feeling. Focus on crisp bedding, matching accessories, and polished details. Chapters 1, 3, and 5 will guide you.

Bedding: The Foundation of Cosiness

Time: 1-2 hours | Budget: GBP 50-80

Your bedding is the single most impactful change you can make. A well-made bed transforms the entire feel of your bedroom instantly.

Self-Assessment

How does your current bedding look and feel?: ■ 1 ■ 2 ■ 3 ■ 4 ■ 5

Before vs. After

BEFORE	AFTER
Flat, mismatched bedding with one sad pillow	Three-layer hotel-style bed with 4-6 plump pillows and a folded throw

Step-by-Step Actions

- Strip everything off your bed and start fresh (5 min)
- Add your base layer: fitted sheet + flat sheet (GBP 15-25) (5 min)
- Add your middle layer: a good quality duvet (GBP 25-40) (5 min)
- Add your top layer: a folded throw blanket at the foot (GBP 10-15) (5 min)
- Arrange 4-6 pillows on a double bed in descending size (10 min)
- Master the hotel fold: fold the top sheet back over the duvet edge (5 min)

Do This Now

Right now, pull your duvet tight and fold the top 15cm back to create a crisp hotel fold. Instant upgrade.

Your Notes

My bed size: _____

Colour scheme for bedding: _____

Designer Tip

Always buy bedding one size up from your bed - a king duvet on a double bed gives that luxurious, overstuffed look hotels use.

Lighting: Setting the Mood

Time: 30-60 minutes | Budget: GBP 30-55

Lighting is the secret weapon of interior design. The golden rule: never use your ceiling light in the bedroom. Layer warm, low lighting instead.

Self-Assessment

How does your bedroom lighting currently make you feel?: ■ 1 ■ 2 ■ 3 ■ 4 ■ 5

Before vs. After

BEFORE	AFTER
Harsh overhead ceiling light as only source	Three layered warm light sources creating a soft, inviting glow

Step-by-Step Actions

- Turn off your ceiling light right now - you will never use it again (1 min)
- Place a bedside lamp with a warm 2700K bulb (GBP 10-20) (10 min)
- Add a floor lamp in a dark corner (GBP 15-25) (10 min)
- String fairy lights along a shelf or headboard (GBP 5-10) (15 min)
- Test your new lighting at different times of day (10 min)

Do This Now

Switch off your ceiling light right now. Use only your phone torch or a candle for 10 minutes and notice how the room feels completely different.

Your Notes

Current number of light sources: _____

Bulb colour temperature to buy: _____

Designer Tip

The colour temperature matters more than the fixture. Always choose 2700K (warm white) bulbs - never daylight bulbs in the bedroom. Check the box before buying.

Curtains: Framing Your Space

Time: 1-2 hours | Budget: GBP 20-30

Hanging curtains properly is the most underrated trick in interior design. The secret: hang them close to the ceiling, not the window frame.

Self-Assessment

How do your current curtains or window coverings look?: ■ 1 ■ 2 ■ 3 ■ 4 ■ 5

Before vs. After

BEFORE	AFTER
Short curtains hung at window frame, letting light bleed in	Floor-length curtains hung near ceiling, creating height and blocking light

Step-by-Step Actions

- Measure from ceiling height (not window frame) to floor (5 min)
- Choose blackout curtains in a neutral tone (GBP 20-30) (shop)
- Install curtain rod as close to ceiling as possible (30 min)
- For renters: use a no-drill tension rod inside the frame (15 min)
- Let curtains puddle slightly (2-3cm) on the floor for luxury (5 min)
- Ensure curtains extend 15-20cm beyond window frame on each side (5 min)

Do This Now

Measure the distance from your ceiling to the floor. Write it down. This is the curtain length you need.

Your Notes

Ceiling-to-floor measurement: _____

Window width: _____

Curtain colour choice: _____

Designer Tip

Hanging curtains near the ceiling makes your room look dramatically taller. Even a 2-metre ceiling looks grand with properly hung curtains. This one trick changes everything.

Furniture Layout: Finding the Flow

Time: 1-2 hours | Budget: GBP 0

Rearranging furniture costs nothing but transforms everything. The goal: create clear pathways and a sense of calm symmetry.

Self-Assessment

How functional and balanced does your current layout feel?: ■ 1 ■ 2 ■ 3 ■ 4 ■ 5

Before vs. After

BEFORE	AFTER
Bed shoved in corner, no clear pathway, mismatched heights	Centred bed with balanced sides, clear 60cm walkways, aligned heights

Step-by-Step Actions

- Clear the floor completely - move everything to the centre (15 min)
- Position bed centred on the wall opposite the door (or longest wall) (20 min)
- Ensure 60cm clearance on both sides of the bed (5 min)
- Place nightstand at mattress-top height on your dominant side (5 min)
- Create visual symmetry: matching lamps, balanced items (15 min)
- Stand in the doorway and assess the view - adjust as needed (10 min)

Do This Now

Stand in your doorway right now. What is the first thing you see? The bed should be the focal point, not clutter or a blank wall.

Your Notes

Best wall for bed placement: _____

Clearance measurement (left): _____

Clearance measurement (right): _____

Designer Tip

Your nightstand should be exactly the same height as your mattress top. Too high or too low and everything feels off. Measure before you buy or stack books underneath to adjust.

Wall Decor: Adding Personality

Time: 1-2 hours | Budget: GBP 10-25

Wall decor gives your bedroom personality without clutter. The rule: one statement piece beats ten small random items every time.

Self-Assessment

How do your walls currently look?: ■ 1 ■ 2 ■ 3 ■ 4 ■ 5

Before vs. After

BEFORE	AFTER
Bare walls or random items with no cohesion	Curated gallery wall or striking statement piece at perfect height

Step-by-Step Actions

- Remove everything from your walls - start with a blank canvas (10 min)
- Choose one approach: gallery wall above bed OR one large statement piece (*decide*)
- For gallery wall: use odd numbers of frames with 5-7cm spacing (30 min)
- Lean large art against the wall on a shelf for easy, no-damage display (10 min)
- Use command strips for renter-friendly hanging (15 min)
- Step back and check alignment from bed-level perspective (5 min)

Do This Now

Take one piece of art or a framed photo and lean it against the wall on your nightstand or a shelf. See how it instantly adds warmth.

Your Notes

Wall decor style (gallery/statement): _____

Number of frames needed: _____

Designer Tip

The centre of your art should be at eye level when standing (approximately 150cm from the floor). Above the bed, the bottom of the frame should be 15-20cm above your headboard.

The Rug: Grounding the Room

Time: 30 minutes | Budget: GBP 15-30

A rug beside your bed means warm feet every morning and adds a layer of texture that makes the room feel finished and intentional.

Self-Assessment

What do your feet land on when you get out of bed?: ■ 1 ■ 2 ■ 3 ■ 4 ■ 5

Before vs. After

BEFORE	AFTER
Cold bare floor greeting you every morning	Soft, textured rug warming your feet and grounding the room

Step-by-Step Actions

- Measure the space beside your bed (minimum 60x90cm) (5 min)
- Choose a rug that complements your bedding colours (GBP 15-30) (shop)
- Place the rug so 2/3 sits under the bed (5 min)
- Consider layering a smaller textured rug on top for depth (5 min)
- Ensure the rug extends beyond where your feet land (5 min)

Do This Now

Place a towel or spare blanket beside your bed right now. Step on it tomorrow morning and notice the difference warm feet make to your mood.

Your Notes

Space available beside bed: _____

Rug colour/texture preference: _____

Designer Tip

A rug that is too small looks worse than no rug at all. Always go bigger than you think you need. The rug should extend at least 60cm out from the bed on the sides you use.

Item	Estimate	Actual
■ Bedside rug (60x90cm+)	GBP 15-30	_____

Storage: Clearing the Clutter

Time: 2-3 hours | Budget: GBP 10-20

A cluttered bedroom is a stressed mind. The goal: everything has a home, and surfaces are almost empty. Your nightstand should have a maximum of 3 items.

Self-Assessment

How cluttered does your bedroom currently feel?: ■ 1 ■ 2 ■ 3 ■ 4 ■ 5

Before vs. After

BEFORE	AFTER
Surfaces covered in clutter, no clear storage system	Clean surfaces, hidden storage, calm and organised space

Step-by-Step Actions

- Empty every surface in your bedroom completely (15 min)
- Sort items: keep in bedroom / move elsewhere / bin (30 min)
- Add under-bed storage boxes for seasonal items (GBP 5-10) (10 min)
- Install one floating shelf for display items (GBP 5-10) (20 min)
- Use an over-door organiser for accessories (10 min)
- Return only 3 items maximum to your nightstand (5 min)

Do This Now

Clear your nightstand completely right now. Put back only three things: a lamp, one book, and one personal item. Notice how calm it feels.

Your Notes

Items to remove from bedroom: _____

My 3 nightstand items: _____

Designer Tip

The three-item nightstand rule is non-negotiable. A lamp, something you are reading, and one personal item (a candle, photo, or small plant). Everything else finds a different home.

Colour Palette: Creating Harmony

Time: 30 minutes planning | Budget: GBP 0-10

A cohesive colour palette is what separates a designed room from a random collection of things. Three colours maximum. Use the 60-30-10 rule.

Self-Assessment

How cohesive is your current colour scheme?: ■ 1 ■ 2 ■ 3 ■ 4 ■ 5

Before vs. After

BEFORE	AFTER
Mismatched colours with no clear palette or intention	Harmonious three-colour scheme following the 60-30-10 rule

Step-by-Step Actions

- Look at what you already own - identify the dominant colour (10 min)
- Choose your 3 colours: 60% dominant, 30% secondary, 10% accent (10 min)
- Your dominant colour (60%) should be your walls and large textiles (*note*)
- Your secondary colour (30%) is bedding, curtains, rug (*note*)
- Your accent colour (10%) is cushions, art, small decor (*note*)
- Get fabric samples or paint swatches before committing to purchases (5 min)

Do This Now

Walk around your bedroom and photograph it. Look at the photo - what colours dominate? Write down the three most prominent colours you see.

Your Notes

My primary colour (60%): _____

My secondary colour (30%): _____

My accent colour (10%): _____

Designer Tip

When in doubt, choose warm neutrals (cream, oatmeal, soft grey) as your 60% and 30%, then add one bold accent at 10%. You cannot go wrong with this formula.

Plants: Bringing Life Indoors

Time: 30 minutes | Budget: GBP 10-20

Plants add life, colour, and a sense of calm. The key: one large plant makes more impact than five tiny ones. And faux plants are absolutely fine - no shame.

Self-Assessment

How much natural or green life is in your bedroom?: ■ 1 ■ 2 ■ 3 ■ 4 ■ 5

Before vs. After

BEFORE	AFTER
No greenery, room feels flat and lifeless	One lush statement plant bringing life and freshness to the space

Step-by-Step Actions

- Identify the light levels in your bedroom (most bedrooms are low light) (5 min)
- Choose one statement plant: snake plant, pothos, or ZZ plant (GBP 8-15) (shop)
- Place it in the emptiest corner or on a high shelf (5 min)
- Add one trailing plant (pothos) on a high shelf if space allows (5 min)
- If maintenance is not for you, choose high-quality faux plants (shop)

Do This Now

Identify the darkest corner of your bedroom. That is where your new plant will go - snake plants and ZZ plants thrive in low light.

Your Notes

Light level in bedroom: _____

Plant type chosen: _____

Placement location: _____

Designer Tip

The snake plant (Sansevieria) is virtually indestructible, purifies air, and releases oxygen at night - making it the perfect bedroom plant. Water it once a fortnight and forget about it.

Scent: The Invisible Layer

Time: 15 minutes | Budget: GBP 15-25

Scent is the invisible layer that makes your bedroom feel like a retreat. Layer scents the way you layer lighting - a base note and an accent.

Self-Assessment

What does your bedroom currently smell like?: ■ 1 ■ 2 ■ 3 ■ 4 ■ 5

Before vs. After

BEFORE	AFTER
No intentional scent, or stale air	Layered signature scent creating a calming sleep sanctuary

Step-by-Step Actions

- Choose a base scent: soy candle in vanilla, sandalwood, or cotton (GBP 5-10) (*shop*)
- Choose an accent scent: linen spray in lavender or eucalyptus (GBP 3-5) (*shop*)
- Consider an essential oil diffuser for continuous subtle scent (GBP 10-15) (*shop*)
- Place candle on nightstand - spray linen on pillows before bed (*5 min*)
- Layer scents: base candle + accent spray for a signature bedroom scent (*5 min*)

Do This Now

Open your bedroom window for 10 minutes right now. Fresh air is the foundation of every good scent strategy. You cannot layer scent on top of stale air.

Your Notes

Base scent choice: _____

Accent scent choice: _____

Designer Tip

Lavender is scientifically proven to aid sleep. Spray your pillows with lavender linen spray 15 minutes before bed. Your sleep quality will noticeably improve within a week.

The GBP 170 Shopping List

Time: Planning session | Budget: GBP 170 total

Here is your complete shopping list for the entire bedroom transformation. Every item, every price range, every recommended shop. Tick items off as you buy them.

Self-Assessment

How prepared are you to start shopping?: ■ 1 ■ 2 ■ 3 ■ 4 ■ 5

Before vs. After

BEFORE	AFTER
Overwhelmed, not knowing where to start or what to buy	Clear, prioritised shopping list with every item budgeted

Step-by-Step Actions

- Review the full list below and prioritise by impact (*15 min*)
- Check what you already own - cross those off (*10 min*)
- Shop Primark Home and IKEA first for best value (*trip*)
- Check Dunelm for curtains and bedding (*trip*)
- Amazon for fairy lights, command strips, and storage (*online*)
- Track actual spend in the right column (*ongoing*)

Do This Now

Open your phone and check the Primark Home, IKEA, and Dunelm websites right now. Bookmark the homewares sections.

Your Notes

Total budget available: _____

Priority items to buy first: _____

Designer Tip

Buy bedding and curtains in person if possible - colours on screens are unreliable. Take a fabric swatch from home to match against. IKEA's DVALA range is unbeatable value for crisp white sheets.

The Weekend Timeline

Time: One full weekend | Budget: GBP 170 total

Everything in this book can be done in one weekend. Here is your hour-by-hour plan for a complete bedroom transformation from Saturday morning to Sunday afternoon.

Self-Assessment

How ready are you for your transformation weekend?: ■ 1 ■ 2 ■ 3 ■ 4 ■ 5

Before vs. After

BEFORE	AFTER
Vague intention to 'do something' with no plan	Concrete weekend plan with every hour accounted for

Step-by-Step Actions

- SATURDAY MORNING: Bedding + curtains (strip bed, install curtains, make bed) (3 hours)
- SATURDAY AFTERNOON: Layout + lighting (rearrange furniture, set up lamps) (3 hours)
- SUNDAY MORNING: Walls + rug (hang art, place rug, add plant) (2 hours)
- SUNDAY AFTERNOON: Styling + scent (declutter, style surfaces, add candle) (2 hours)
- Take your after photos from the same angles as your before photos (10 min)
- Light your candle, close the curtains, turn on your lamps, and enjoy (evening)

Do This Now

Pick your transformation weekend right now. Put it in your calendar. Buy your shopping list items before that weekend arrives.

Your Notes
